Loubna Aktar

Full stack developer

0776021569 | Beni Mellal, Morocco |Email | Github | Linkedin | Portfolio

PROFILE :

Full Stack Developer specializing in Java and React, with hands-on experience developing web applications using modern technologies. Skilled in Java, Spring Boot, JavaScript, React, REST API development, and database management. Organized, autonomous, and analytical, I am eager to contribute to real-world projects, strengthen my technical skills, and grow within a collaborative development team.

TECHNICAL SKILLS:

- **Programming Languages:** Java, JavaScript
- **Web Technologies:** HTML5, CSS3
- **Back-End Development:** Spring Boot, Spring Security, Spring Data JPA
- **Front-End Development:** React
- **Databases:** MySQL
- **Software Architecture:** Microservices architecture, notification services
- **Development Tools:** Git, GitHub, IntelliJ IDEA, Visual Studio Code
- **API Testing and Documentation:** Postman, Swagger
- **DevOps and Monitoring:** Docker, Docker Compose, Prometheus, Grafana, Loki, Alertmanager, Spring Boot Actuator
- **Design and Prototyping:** Figma

TECHNICAL PROJECTS

HealthCare+ – REST API for Medical Management

Stack **:** Java 21, Spring Boot, Spring Security, Spring Data JPA, MySQL, Flyway, MapStruct, React, Docker, Swagger, JUnit, Maven, Git/GitHub.

Developed a Full Stack medical management application featuring REST APIs and a React front end, with CRUD operations, secure authentication and role-based access control. Implemented database migrations, DTO mapping, API documentation, and containerization.

LogiTrack – Full Stack Logistics Management Platform

Stack : Java, Spring Boot, Spring Security, JWT, MySQL, React, Docker, Prometheus, Grafana, Loki, Spring Boot Actuator.

Developed a logistics management platform for tracking orders and managing customers and products. Integrated an independent notification microservice and monitoring tools to support application observability.

AssetPilot – IT Asset Management Platform

Stack : Java 21, Spring Boot, Spring Security, JWT, React, MySQL, Docker, Docker Compose.

Developed a Full Stack application for managing IT equipment, employee assignments, and maintenance incidents. Implemented secure, role-based authentication and caching with Redis to improve application performance.

EDUCATION AND TRAINING

Full Stack Development Training : Ahmed Al Hansali Digital School (ENAA), Beni Mellal, Morocco | 09/2025 – 10/2025

Bachelor's Degree in Islamic Archaeology National Institute of Archaeological Sciences and Heritage (INSAP), Rabat, Morocco | 2023–2024

LANGUAGES:

Arab : Native language

French : Fluent

English : Intermediate
